54th ANNUAL SAFE SYMPOSIUM

OCTOBER 31 – NOVEMBER 2, 2016

DAYTON CONVENTION CENTER

DAYTON, OHIO

It is our great pleasure to welcome you to the 54th Annual SAFE Symposium. This year's symposium continues the tradition of being the premier forum for military professionals, academics, engineers, and industry leaders who join together with the goal of advancing personal safety and protection in air, land, space, and marine environments worldwide. The SAFE Symposium remains a powerful platform for innovation, education, networking, and strengthening the disciplines of the personal safety and protection community. The knowledge shared and relationships created among participants are conduits for continued learning, exploration, and innovation.

In addition, the program will feature technical sessions including panels and briefings and will provide a valuable opportunity to share ideas on an international basis with participants from around the world. Attendees will also have the opportunity to explore the technological advancements and innovations in safety and life-sustaining equipment by visiting with the many members of industry who will be exhibiting at this year's symposium.

The 2016 SAFE Board of Directors as well as the 2016 Symposium Committee would like to thank each of our speakers, panel members, technical presenters, moderators, exhibitors, and our individual and corporate sustaining members for their commitment and dedication to SAFE.

As symposium presentations, exhibitors, and other events/information are added to our program, they will be posted on the SAFE website at **www.safeassociation.com** so check periodically for the latest information! A Tentative Program will be mailed and posted as we approach the symposium.

HOUSING SCAM – 2016 SAFE SYMPOSIUM

If you are contacted by "Exhibition Housing Company," "Global Housing" or any other company claiming they are the "official" housing service for the 2016 SAFE Symposium, and that they are able to obtain significant reductions for you on rooms, **please do not do business with them**. SAFE has made no arrangement, nor does it plan to, for the utilization of a 2016 sleeping room housing service.

Management at the Crowne Plaza and Dayton Marriott Hotels were advised and, unfortunately, they reported this is becoming more of an issue across the country each year. They have also advised that these types of operations get as much money as they can, close up shop, and move. They will take your deposit and run! SAFE's official published statement regarding sleeping rooms follows...

"Note regarding sleeping rooms at Crowne Plaza Hotel and Dayton Grand Hotel:

Special Note: We understand that companies offering to provide individual rooms or small room blocks at less than SAFE contracted rates have been in contact with several of our corporate members and exhibitors. While the SAFE room rate may be a few dollars more than the rates quoted by these companies, this is due to the fact that SAFE negotiates with the hotel to obtain no rental fees for our meeting and exhibit space. This negotiation results in a huge savings which is passed along to our SAFE attendees in the form of lower registration and exhibit space rates. The hotel recovers a small percentage of this rental by adding a few dollars to the negotiated room rate.

It is important to understand that this slight room increase does not come close to covering the astronomical per square foot per day rates the hotel normally charges for meeting room and exhibit space rental.

SAFE is financially liable for all contracted rooms, whether the hotel sells them or not. This is why we ask that you always book your rooms under the SAFE block. We work diligently to give all attendees the best overall experience at our annual Symposium and ask for your continued support."

Please pass this along to anyone you think may benefit!
